QUADRAMED AWARDED ENTERPRISE HEALTHCARE INFORMATION SYSTEM CONTRACT BY WILKES REGIONAL MEDICAL CENTER

RESTON, VA – (July 17, 2006) – QuadraMed® Corporation (Amex: QD) today announced that Wilkes Regional Medical Center, North Wilkesboro, North Carolina, has awarded the company a multi-year contract to implement the full line of QuadraMed’s healthcare information system (HIS) solutions. The implementation of QuadraMed’s solutions will enable Wilkes Regional, a 120-bed acute care facility, to deploy a comprehensive EHR (Electronic Health Record) for its patients.

“With the deployment of QuadraMed’s comprehensive EHR solution, Wilkes Regional Medical Center’s executive management and board of directors are making quality patient care and patient safety the number one priority for their community,” said Keith Hagen, QuadraMed President and CEO. “Working together over the next two years, this implementation of advanced technology will include QuadraMed’s patient care, clinical, revenue cycle management, access management and health information management products.”

When fully implemented, the Wilkes Regional healthcare information system will feature QuadraMed’s laboratory information system (LIS) and QuadraMed’s radiology/PACS offerings, along with the Affinity® HIS, Quantim® health information management (HIM), and TempusOne® enterprise scheduling products. Advanced patient care technology using QuadraMed’s CPOE (Computerized Physician Order Entry) solution will provide increased patient safety and help streamline the care process.

“Patient safety was the driving factor when we decided to replace our existing system,” said Wilkes Regional Medical Center’s Chief Executive Officer Ted Chapin. “QuadraMed has an excellent reputation for successful HIS implementations in community hospitals like ours. When we compared system functionality and value, QuadraMed was clearly the vendor to partner with for the long term.”

Wilkes Regional physician Ben Horton, MD, FACOG, FACS, noted, “QuadraMed’s CPOE solution was the best we reviewed. Its clinical decision support tools and enterprise view of a patient’s clinical circumstance will enable us to offer greater patient safety and improved outcomes.”

-more-

QuadraMed's CPOE includes the exclusive embedded Intelligent Care Sets® (ICS), a feature that provides physicians with relevant diagnostic and therapeutic content for better clinical decision support. End users can author their own rules for organizing and displaying clinical data in the way that is most relevant to them. This helps prevent adverse drug events and redundant tests, while improving efficiency, workflow and organization when orders are entered.

QuadraMed received a "Best in KLAS" award in the Acute Care Registration, Scheduling & Patient Accounting category in the 2005 edition of the "Top 20 Year-End Best in KLAS Awards", while Affinity Clinicals were rated number one in the Community Clinical & Ancillary Solutions category in the same report. The Affinity HIS was also ranked number one in the 2005 "MD Buyline User Satisfaction Trending" survey.

About Wilkes Regional Medical Center

Wilkes Regional Medical Center was established to care for the sick and injured. Our mission is to strive to provide comprehensive, high quality and cost effective health care to the citizens of Wilkes County and surrounding areas.

Wilkes Regional Medical Center is fully accredited by the Joint Commission on Accreditation of Healthcare Organizations. The seal of accreditation is accepted nationwide as the highest standards of medical care in personnel, equipment and organization. Since the Joint Commission considers accreditation maintenance as an ongoing education activity for review, inspection and updating you have the added assurance that Wilkes Regional Medical Center will consistently give you the most modern medical care available.

Wilkes Regional Medical Center is owned by the Town of North Wilkesboro and governed by the Hospital Operating Corporation, a conscientious team of leaders of the community who volunteer their time. We are licensed for 130 beds, including a 10-bed skilled nursing unit.

About QuadraMed Corporation

QuadraMed Corporation advances the success of healthcare organizations through IT solutions that leverage quality care into positive financial outcomes. As evolving reimbursement scenarios challenge healthcare organizations to leverage quality of care into payment, clients committing to QuadraMed's care-based solutions can realize market leading financial performance. Using QuadraMed's end-to-end solutions to optimize the patient experience and leverage quality of care into payment, our clients can receive the proper reimbursement, in the shortest time, at the lowest administrative cost. Behind our products and services is a staff of almost 600 professionals whose experience and dedication to service have earned QuadraMed the trust and loyalty of customers at approximately 2,000 healthcare provider facilities.
